

What Major Corporations Don't Want You to Know

Common Household Ingredient Saves You Thousands of Dollars on Medicines and Cleaning Supplies!

Secret Elixir, Discovered 10,000 Years Ago, Revealed

Sound too good to be true?

Before big pharma and major corporations produced medicines and household products, our ancestors relied on ingredients found in nature.

A secret elixir was discovered more than 10,000 years ago, in the days of ancient Egypt. A mistake that left a jug of wine exposed to air led to the creation of vinegar – yes vinegar – that product everyone has tucked into the dark recesses of their pantries.

Through the ages, vinegar has been used as a medicine.

- The Babylonians loved its superior healing properties
- Hippocrates used it to treat his patients
- Its disinfectant properties saved thousands of soldiers during the Civil War

What does vinegar have to do with big pharma and cleaning supplies?

This one magic elixir can replace:

- External pain relievers – starting 50 years ago, vinegar has been used to ease joint pain, and so much more
- Pills for headache relief – no need for aspirin or ibuprofen
- Disinfectants – combine vinegar with other household supplies for safe disinfecting
- Cleaning agents – vinegar replaces chemically-laden cleaning products

And, best of all – those costly weight loss pills and mixtures!

What can vinegar do?

- Promote weight loss
- Calm an upset stomach
- Ease leg cramps
- Relieve headaches and coughs
- Relieve muscle, joint, and sore throat pains
- Cool sun burns
- Remove corns and calluses
- Relieve itchy skin
- Aid digestion
- Clean dishes, pans, appliances, counters, metal, bathrooms, and carpets
- Plus, hundreds of other uses!

The Vinegar Diet

Vinegar, combined with one other very common ingredient found in the grocery store, is all you need to lose weight and feel great! When you mix these two items together, you can forget about:

- Counting calories
- Complicated rules on when and what to eat
- Depressing restrictions
- Weighing your food
- Fads
- Expensive supplements
- Meal-replacement shakes
- Prepared meals that taste like “cardboard”

Vinegar promotes the growth of “good” bacteria in the body, which:

- Supports the immune system
- Helps digest food
- Makes some vitamins
- Keeps the intestines in the proper balance
- Discourages illnesses caused by “bad” bacteria

In The Vinegar Anniversary Book, we’ll share everything you need to know to start the Vinegar Diet:

- How it works
- Why it works
- How to boost its effects, and –
- Fast-starting tips
